# HATSUKAICHI WELCOMES VEGETARIAN VISITORS!

From the UNESCO World Heritage Site of Itsukushima on the island of Miyajima to the Chugoku Mountains, Hatsukaichi offers history, culture, natural beauty, and, of course, delicious food. This guide aims to help vegetarian diners enjoy our city to the full.

## Getting to Hatsukaichi and Miyajima

- Hatsukaichi is approx 15 km from Hiroshima.
- Miyajima is approx 20 km from Hiroshima.

Both can be reached by local train, streetcar and ferry from Hiroshima in less than an hour.

## Vegetarian in Japan

It is now rare to find restaurants in Japan that are entirely unaware of vegetarian and vegan diets. Awareness that fish-based dashi (stock) rules out much Japanese cuisine for vegetarians is growing. However, the concept of vegetarian cheese and vegan sugar is still patchy. Some places may be unable to cook fried foods in separate oils

### To inquire about cooking oil used

ベジタリアン料理には専用の油を使っていますか？

Do you use separate oil to cook vegetarian food?

*Bejitarian ryori niwa senyou no abura o tsukatte imasu ka?*

### A word about Gluten-Free

Although more restaurants in Japan are offering gluten-free options, we recommend that sufferers of Celiac Disease take special care when ordering.

For more information about the restaurants listed and all things Hatsukaichi, check out our local magazine [HERE](#) online.
